ABSTRACT

This is a template for the extended abstract, which is the only file required for this Conference. Extended abstracts are submitted through the Conference website, reviewed and, once accepted can be uploaded in the final version (revised if required by the reviewers). From here the terms "extended abstract" or "abstract" will be used indistinctively. Please follow the instructions below.

Key Words: *Heat Transfer, Finite Elements, Natural Convection.*

1. INTRODUCTION

Potential authors are invited to submit an abstract with this format before **November 15, 2015**. The abstract can be uploaded via the Conference website (www.thermacomp.com).

2. MAIN BODY

Abstracts should outline the main features, results and conclusions as well as the general significance of the contribution. Relevant references, figures, and tables are welcome. However, please note that extended abstracts:

- can only be accepted as .doc/.docx/.pdf files not larger than 3MB;
- must not exceed four pages;
- must be written in English;

Abstracts will be reviewed and acceptance will be communicated to the authors by February 15, 2016. Authors will then have the chance to upload the revised/final version of their abstract.

3. RESULTS

The main results should be presented in a specific section of the extended abstract. Relevant references, figures, and tables are welcome. An example of the format to be used for figures in extended abstracts is given in Figure 1. Please do use this same type of format in the abstract, and produce a high quality .pdf file (for instance using free software, for instance CutePDF <http://www.cutepdf.com/products/cutepdf/writer.asp>). Authors who wish to include tables in their extended abstract should use the format provided in Table 1.

In the preparation of extended abstracts, authors are invited to follow the format provided on ThermaComp2016 site. Submitted Abstract-Authors.pdf file should therefore look like the example given in the file "Abstract_Surname_TC2016.pdf" file that can be downloaded from this site.

4. CONCLUSIONS

Please note that the final acceptance of papers for presentation is conditional on one of the authors registering before May 15, 2016. Multiple presentations are only allowed if the papers are of very high quality. Presentation per delegate is allowed.
